

GROUP 18: NOBLE GASES

Element Symbols	He, Ne, Ar, Kr, Xe, Rn, Uuo
# of Valence Electrons	8 electrons in outer shell = full; He = 2 electrons in outer shell = full
Metal, Nonmetal, or Metalloid	All non-metals
Reactivity	Non-Reactive because they are inert gases
Properties	All colorless and found in air; Very low electronegativities; Low boiling points
State of Matter at Room Temperature	All gases
